

The district would like to clarify any misgivings about the 2007 tax rate. The disparity between the 2006 and 2007 tax rates make it appear that the overrides have significantly increased taxes. However, it is important to note that the District was able to provide citizens a tax break in the year 2006 (see chart). The override has only caused an increase in taxes from the 2005 amount by approximately 25%. The school district appreciates the taxpayers' support. Many positive changes have occurred because of taxpayers' support. If you have more concerns about changes in the district or the tax rate contact Dorene Mudrow (928) 643-7333 ext. 314.
